

CHRONOMASTER

Zenith's Chronomaster collection features light-weight natural or black titanium case; transparent dial that gives the appearance of floating numerals with visible background movement; and carbon fibre strap withstanding traction of up to 300kg. Regulated with a raised cobalt screw; durable and shock resistant.

ARTIC EXPLORER

Villermont's Arctic Explorer watch is designed to withstand the extreme temperatures of the North Pole and is equipped with Solar Navigator system that allows for easy orientation based on position of sun and shade. Beats at 28,800 vibrations per hour with a power reserve of 48 hours; in racing green with rubber strap and stainless steel folding clasp. Limited to 50 pieces; available at authorised dealers, price RM34,155.

RICHARD MILLE

Richard Mille's first boutique in Malaysia is furnished with extra clear crystal glass, black ebonywood, stainless steel and simulated leather. 300sq ft room with full lounge setting allows customers to view timepieces in privacy. Main entrance shows off a 2.8m-high three-dimensional tempered glass feature handcrafted with different parts of a Richard Mille watch, sandblasted to emulate the movements of its signature timepiece, the Tourbillon Split Seconds Chronograph, located in Starhill Gallery, Kuala Lumpur.

BLU BOUTIQUE

Blu's new boutique has over 3500sq m of retail space with top watch brands, including the entire range from the Blu collection. Also available are interesting pieces like the Blue-Trojka clock. Located in Starhill Gallery, Kuala Lumpur.
